Application/Control Number: 10/522,442

Art Unit: 3682

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 1-17, drawn to a bearing, classified in Class 384, subclass 121.

Group II: Claims 18-21, drawn to a process of making a bearing, classified in Class 29, subclass 898+.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make an other and materially different product or (2) that the product as claimed can be made by another and materially different process (M.P.E.P. § 806.05(f)). In the instant case the process as claimed can be used to make an other and materially different product, for example, a bearing wherein there are different expansions and thickness.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

THE FOLLOWING SPECIES RESTRICTION IS ALSO REQUIRED:

Application/Control Number: 10/522,442 Page 3

Art Unit: 3682

This application contains claims directed to the following patentably distinct species of the claimed invention: the species of Figure(s) 1-2 versus that of Fig(s). 13 versus Fig(s). 14 v Fig(s). 15 v 16 v17 v 18.

The species are independent or distinct because they contain mutually exclusive features.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, AND A LISTING OF ALL CLAIMS READABLE THEREON (NOT, FOR EXAMPLE, "AT LEAST CLAIMS..."), INCLUDING ANY CLAIMS SUBSEQUENTLY ADDED, AND IF THE AMENDMENT OF ANY CLAIMS RESULTS IN A CHANGE OF THE SPECIES THEY READ UPON, THAT TOO SHOULD BE INDICATED. FAILURE TO DO SO MAY RESULT IN A HOLDING OF NONRESPONSIVENESS. (Note that any "schematically" illustrated elected species may not schematically represent plural embodiment varying claimed features, unless clarified by drawing corrections, to be responsive. If those details are illustrated in another figure[s], that other figure[s] should be identified.) An argument that a claim

Application/Control Number: 10/522,442

Art Unit: 3682

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

The elected species is limited to the features set forth in the elected figures, and does not include features not illustrated in those figures, or illustrated in other figures. Accordingly, applicant should review all claims to ensure that all features of the elected species are properly illustrated, as required, in order to avoid a holding that an unillustrated feature does not form part of the elected species.

¹ Applicants may wish to consider listing claims readable with care in view of the possible consequences of having to later cancel them.
